MULTI PORT VALVES

Product Details

MPV are made from wear resistant, high hardness ceramic disk that provide longer service life. Innovatively designed, easy to handle, also excellent seal capability preventing internal leakage. By just clockwise and anti clockwise rotating of handle multiple functions can be performed such as filter, back wash, rinse, brine suction etc.

- The multi-port valves have a unique design which ensures that they are perfect for flow switching operations.

- These are true multi-port valves that have seals at every port. Their use helps in cost saving towards pipes and fittings.
- These are ABS constructed and can be available in top-mount and side-mount models.
- The multi-port valves are ideal for downflow and upflow filters. We can also provide brine directors for softener valves.

Product range:

3/4" to 2.5" -Top & Side Mount valve for Filter and Softner application.
